

## INTRODUCTION

Haris International is in operation since its inception in 2006, when it was established by Muhammad Jafar Ghani. The consistent contributions in the domain of support and services to date see organization graduated into a multidimensional establishment exhibiting command over a diverse range of its operational methodologies. Exhibiting quality in customer satisfaction by spearheading its activities on well-defined professional and ethical grounds. Reducing production cost is the constant priority for oil & gas producers. Haris International is capable of supplying the most professional and reliable equipment, components, parts and hardware to oil & gas industry. We also provide solutions and services from upstream to down stream. We are aimed at helping customers to obtain the maximum from their each well.

Our talented and diverse people, principles and ethical behavior and drive for performance excellence enable us to deliver solutions for the oil and gas industry challenges

## UPSTREAM SOLUTIONS

Every day, exploration, recovery and production operations around the world are putting advanced technologies to use, helping to:

- Enhance the efficiency of directional drilling operations
- Reduce downtime and maintaining risers, pipeline and equipment
- Protect the health and safety of workers in hazardous environments

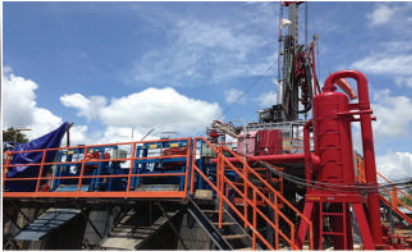

● DRILLING & CEMENTING ●

● CEMENT ANALYZER ●

● FLOW ASSURANCE ●

● **MUD GAS SEPARATOR** ●

● **RIG FABRICATION & MAINTENANCE** ●

● **COIL TUBE DRILLING CONTROL** ●

● **TUBULAR & CASING PROTECTIVE COATINGS** ●

# Midstream Solutions

## Our Service for you!

Transportation and storage operations around the world count on advanced technologies to maintain safe, uninterrupted midstream product flow – even across rugged terrain and in challenging subsea environments.

- Managing valuable underground assets
- Extending equipment life and reducing downtime
- Protecting the health and safety of workers in hazardous environments

Pipeline Coating

Pipeline Locators and Electronic Markers

Industrial Safety

Automatic Ultrasonic Weld Inspection

Office No M 7, St No 40, Plot 4, Muhammad Plaza, I & T Center, G-10/4, Islamabad - Pakistan.  
Tel: +92 51 2353088, Fax: +92 51 2353089, Cell: +92 322 5073246

## DOWNSTREAM SOLUTIONS

Tank, Line and Process Vessel Corrosion Protection

Refinery & Processing Filtration

### **Refining, Petrochemical, Retail & Marketing**

Oil refining, gas processing and production facilities worldwide use advanced technologies from 3M to stay up and running – and meet the increasing global demand for:

- Improving operation effectiveness and efficiency
- Extending equipment life and reduce downtime
- Protecting the health and safety of workers in hazardous environments

Electrical Construction Materials & Repair

Industrial Supplies & Facility Maintenance

Metal Abrasives & Fabrication

Refinery Safety

Communicating & Networking

Retail Marketing & Commercial Signage

## OIL AND GAS INDUSTRY EQUIPMENT

Haris International partners numbers of manufacturers and distributors around the world to find the right products and develop solutions that respond to our customers' unique challenges.

We also offer a full range of value-added services from logistics management to equipment service and repair. With our broad product offering and technical services, Haris International provides a single and complete source of supply.

• Drilling Rigs • Drilling Equipment • Measurement and Test Equipment • Mud Equipment • Rigging Equipment • Down hole Rigging Equipment • Down hole Drilling Equipment • Pressure Control Equipment • Production Equipment • Solid Control Equipment • Wellhead and Well Control • Down Hole Data Logger

# OIL & GAS INDUSTRY PRODUCTS

## Haris International

is capable to provide oil and gas products through its worldwide network with OEMs, Manufacturers and Distributors

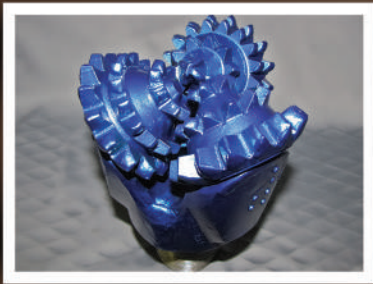

- Actuators • Barite Powder • Casing • Campbell Chain • Compressor Parts • Drill Collars • Drill Pipes
- Drilling Jars • Filters • Forged Bars • Gas Flow Meters • Gauges • Geothermal Dressed Stabilizers
- Hot Rolled Bars • Hole Openers • Hydraulic Catwalk
- Instruments • Motors

Office No M 7, St No 40, Plot 4,  
Muhammad Plaza, I & T Center,  
G-10/4, Islamabad - Pakistan.
